

**IMPORTANT! TIME SENSITIVE! IMMEDIATE RESPONSE NEEDED**

**Telephone System Survey**

To aid us in determining if your current telephone system is able to support Telemmercial® advertising on-hold service, we need your help. Somewhere at your location there is a control box (called a KSU) that feeds the telephones at your site. This box may look something like the diagram below. Please locate this box (usually hung on the wall near an electrical panel or where the telephone lines come inside) and complete the information we ask for so we can verify if it is feasible to add this option. *Thank you.*

Looking at the box where your phone system is, please try to find the manufacturer's name and model number somewhere on the side or front.

Is there a sticker with the name of the company that installed the phone system and a phone number for them?

Or if you know who you call locally if you have a phone problem, please give us that info:

Installation Company Name
